

Single-phase switching power supplies with DIN rail mounting and overvoltage, overload and short-circuit protection.

Technical characteristics

Rating	10 Adc
Input voltage	100 - 240 Vac
Output voltage	12 Vdc
Frequency	47 - 63 Hz
Protection degree	IP-20
Ambient temperature	45 °C
Mounting	DIN Rail
Standards	EN550011, EN55022, EN61000, EN 60950
Weight	0,59 kg

Dimensions

Dimensions (AxBxCxDxE): 75x121x110 mm

Single-phase switching power supplies with DIN rail mounting and overvoltage, overload and short-circuit protection.

Features

Compact and functional design.

Cost effective and easy to connect.

Protection against:

- Overvoltage
- Short circuit

Input voltage 100-240V

Stabilized output voltage, output voltage regulation -15% + 10%

Applications

- FCP power supplies are designed for all those applications that need a DC power supply at low voltage.
